### DETAILED ACTION

1. The drawing figures are objected to because on Fig. 12, there is no numeral "80" thereon, as described on page 46, line 12 of the specification. Either such numeral must be added to the drawing figure or deleted from the specification.
2. Claims 1,2 and 4-20 are allowed.
3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim is indefinite because in lines 3 and 4, there is no direct antecedent basis for the recitation of "said solid base layer".
5. Claim 3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
6. The references listed on both the PTO-892 and the PTO-1449 show art of interest only, over which the claims define allowable subject matter.
7. Applicants' response to this Office action must also include the following editorial changes: page 5, line 6, "gasses" should be "gases"; page 8, line 20, "in" should be inserted after "differences"; page 9, line 5, "the" should be inserted before "system"; page 9, line 12, "a" should be inserted after "using"; page 16, line 1, "lon" should be "In"; page 26, line 3, "gasses" should be "gases"; page 27, line 16, "microns" should be deleted; page 31, line 4, "material of" should be "materials"; page 47, line 11, "the"

should be inserted before "first"; page 47, line 14, "area on exposed" should be "area exposed"; and, in claim 13, line 4, "though" should be "through".
